

OBJET EDEN260V DENTAL ADVANTAGE™

3D print the perfect digital smile.

The Objet Eden260V Dental Advantage 3D Printer from Stratasys® provides the perfect opportunity to join the digital dentistry revolution.

Using PolyJet™ technology, Dental Advantage functions by jetting drops of liquid photopolymer in tiny layers and then curing them with UV light, thereby creating dental models and appliances with astonishingly fine details and smooth surfaces, quickly and easily.

About the size of an office copier, Dental Advantage delivers more than twice the build speed of an entry-level dental solution, in addition to a larger build tray for greater throughput.

Easily integrate Dental Advantage into your dental or orthodontic lab to experience:

Faster turnaround.

- Dramatically cut production time versus hand-milling. Plus models are ready to handle right from the 3D printer; no post-curing is needed.

Higher capacity.

- Exponentially increase output by creating many different models in one run.

Superior accuracy.

- Capture details that are accurate to a layer thickness of 16 microns.

Greater consistency.

- Create reliably consistent dental appliances and restorations with the assistance of CAD/CAM design software and 3D printing technology.

Environmentally safe dental materials.

- Build models with easy-to-handle materials that pose no biohazard safety or disposal concerns.

The technology you need at a price you can afford.

Dental Advantage offers an essential materials package that includes:

- Clear Bio-compatible (MED610)
- VeroDentPlus™ (MED690)

OBJET EDEN260V DENTAL ADVANTAGE™

Dental modeling made easy.

No special skills or digital design knowledge is required to produce a range of crowns, bridges and models with speed and exactness. With Dental Advantage:

- Digitize your workflow from CAD file to model.
- Leverage cutting-edge technology.
- Enjoy a clean, quiet process.
- Store models digitally.
- No strict climate control is required.

Join in the digital dentistry revolution.

Dental Advantage is the essential 3D printer to make precision dental modeling a reality in your dental or orthodontic lab. Create a competitive point of difference by using a digitized workflow to generate faster turnaround and greater production capacity.

Operate your business more efficiently, effectively and profitably while also increasing customer satisfaction with Dental Advantage.

Product Specifications

Model Material:

MED610
VeroDentPlus

Support Material:

FullCure 705 non-toxic gel-like photopolymer support

Build Size:

255 x 252 x 200 mm (10.0 x 9.9 x 7.9 in)

Layer Thickness:

Horizontal build layers down to 16-microns (0.0006 in)

Workstation Compatibility:

Windows® 7 32/64-bit

Network Connectivity:

LAN – TCP/IP

Size and Weight:

870 x 735 x 1200 mm
(34.25 x 28.9 x 47.25 in)
410 Kg (902 lbs)

Power Requirements:

110–240 VAC 50/60 Hz; 1.5 KW single phase

Regulatory Compliance:

CE, FCC

Special Facility Requirements:

Temperature 18°C - 25°C
(64°F - 77°F); relative humidity 30-70%
(non-condensing)

FAITES CONFIANCE AU LEADER FRANÇAIS REVENDEUR EN IMPRIMANTES 3D POUR LES PROFESSIONNELS

Esprit de service

*Réactivité au quotidien, et adaptabilité aux besoins de nos clients sont la meilleure expression de notre esprit de service.
Support technique de nos clients au travers d'une maintenance de proximité et de qualité.
Services : Formations, Assistance sur site et consulting.*

Qui Sommes-Nous

Filliale du groupe d'ingénierie français ING'EUROP, CADvision assure la commercialisation, la mise en place, les services de formation et le suivi technique sur l'ensemble de la gamme Stratasys.

Leader français sur le marché des imprimantes 3D professionnelles, nous revendons également des solutions de CAO 3D.
